

Resources for Working with Latin@ Communities and Domestic Violence

Casa de Esperanza and Family Violence Prevention Fund have collaborated to create two resource lists in Spanish to enhance your work with Latinas and their communities. The resource lists will be helpful for service providers who work with underrepresented populations, especially with Latino communities. The lists are a compilation of written and audiovisual materials in English and Spanish. They include the title, topic, description, contact information, and notes about each resource.

Topics included in the resource lists are:

- Domestic Violence and Latin@s
- Community Engagement
- Culture and Domestic Violence
- Work with Children
- Work with Youth
- Work with Men
- Legal Issues
- Models of Domestic Violence
- Pamphlets and Guides to Work with the Community

To order a **FREE** copy of each of the two resource lists (**only in Spanish**) please e-mail:
